**SUMMARY OF IMPORTANT NOTICES CONCERNING BURGLAR ALARM AND FIRE
ALARM INSTALLATION**

Dear Public Officials/Other Interested Parties:

The Department has issued several important notices between June 27, 2002, and October 27, 2015, specifying the prevailing rate of pay for the installation of burglar and fire alarms. The tables on the following two pages provide a summary of the applicable rates of pay for burglar and fire alarm installation by county as of September 23, 2016. The information in these tables summarizes but **does not** alter the applicable rates of pay issued in the aforementioned important notices.

Please note that minimum rate of pay determinations are issued on a “project-by-project basis.” If you have a public works project in one of the counties listed in the tables that indicates “project-by-project basis,” you may request a minimum rate of pay determination prior to the bid advertisement date of the project by sending a written request to the address below. Each request should include all the relevant documents that would assist the Department in issuing a determination. These documents include but are not limited to the contract, financial documents, plans, specifications, as well as contact information for the Awarding Body.

Please refer to the county determinations to find the rates associated with the craft(s)/classification(s) referenced in the tables. The scope of work for each classification is posted on the Internet at <http://www.dir.ca.gov/oprl/DPreWageDetermination.htm>. This information may also be requested from the Office of the Director – Research Unit by calling (415) 703-4774, by faxing a request to (415) 703-4771 or by writing to:

INSIDE AGREEMENT

BETWEEN

LOCAL UNION 551

INTERNATIONAL BROTHERHOOD

OF ELECTRICAL WORKERS

AND

REDWOOD EMPIRE CHAPTER

NATIONAL ELECTRICAL CONTRACTORS

ASSOCIATION

EFFECTIVE

2017 - 2021

AGREEMENT

SCOPE

Employees employed under the terms of this Agreement shall do all electrical construction, fabrication, installation, or erection work, and all electrical maintenance thereof; including the moving, lifting, and placing electric motors, generators, materials and equipment on the jobsite, and the final running tests thereof. This shall include all permanent and temporary electric lighting, heating, and power, and all photovoltaic, electronic communications systems, electric and electronic controls, and control circuits, and necessary conduits and raceways. This shall include operation of all power driven tools and equipment used for these installations.

All work of joining, splicing, and insulating, and the placing of all flameproof covering, where wiped lead joints are necessary, shall be performed by a cable splicer. Journeymen only shall be used in assisting cable splicers. Cable splicers shall not be required to work on wires or cables when difference in potential is over three hundred (300) volts between any two (2) conductors, or between any conductor and ground, unless assisted by another Journeyman. In no case shall cable splicers be required to work on energized cables carrying in excess of four hundred and forty (440) volts.

Section 3.13: Handling of Material and Equipment

Employees employed under the terms of this Agreement shall do all work of handling and moving any electrical material, equipment, and apparatus on the job to be installed by employees covered hereunder.
