District Council 16

& The

Wall And Ceiling Alliance

July 1, 2018 – June 30, 2022

ARTICLE 3

SCOPE OF WORK

Section 1. The Scope of Work covered by this Agreement shall include but not be limited to all work operations after the initial unloading of the Drywall Finishers material on the jobsite, including distributions to the point of application.

Section 2. Work or services pertaining to the preparation, spotting, painting, detailing, taping, floating, sanding and finishing of interior and/or exterior gypsum, drywall, thin wall, concrete, sheet, wood or plaster surfaces. Skimming/priming or sealing as pertaining to achieving a level 5 finish.

Section 3. Work or services pertaining to the application or type of surface on which materials are applied, including but not limited to texture and simulated acoustic material of all types and the application of radiant heat fill and steel fire proofing materials.

Section 4. Work or services pertaining to the installation of protective coverings and masking prior to the application of finish materials.

Section 5. Caulking and/or application of fire stopping
and/or ceilings and adjoining walls, penetrations, ceilings and floors of
other materials.

Section 6. The operation and care of all taping tools and texturing equipment used in the finishing and texturing of drywall and other surfaces including brushes, rollers, spray texturing equipment, miscellaneous hand, mechanical and power tools, and the operation and maintenance of compressors required in the finishing and texturing of such surfaces.

Section 7. No limitations shall be placed on the work covered by this Agreement by reasons of the surface type of material, or purpose for which the material used is designed or intended.

Section 8. Nothing herein is intended to conflict with or violate any State or Federal law.

Section 9. The clean-up of all material and debris occasioned by any job operation at the site of construction, alteration, or repair undertaken by the Employer signatory hereto, whether such operation occurs on the interior or exterior of a building structure.
