### SCOPE OF WORK PROVISIONS

# **CRAFT/CLASSIFICATION**

Electrician: Inside Wireman, Technician; Cable Splicer

# ID

61-100-3

# LOCALITY

Fresno, Kings, Madera, and Tulare Counties

# **BURGLAR ALARM AND FIRE ALARM INSTALLATION**

The Department has issued several important notices specifying the prevailing rate of pay for the installation of burglar and fire alarms. The notices provide a summary of the applicable rates of pay for burglar and fire alarm installation by county. To view the important notices, please visit the <u>Director's General Prevailing Wage Determinations</u> website for Important Notices Archive

(https://www.dir.ca.gov/oprl/Important\_Notices\_Archive/Important\_notices\_archive.htm)

For Burglar Alarm installation in Fresno, Kings, Madera, and Tulare Counties, the minimum rate of pay would be that of Electrician: Communication & System Installer.

For Fire Alarm installation in Fresno, Kings, Madera, and Tulare Counties, the minimum rate of pay would be that of Electrician: Inside Wireman. Note: Conduit installation is performed at the Inside Wireman rate, and the termination, setting of devices, wiring of control panel and system performance checks are performed at the Communication & System Installer rate.

#### SCOPE OF WORK

# ARTICLE II EMPLOYER RIGHTS -UNION RIGHTS

#### Section 2.1

All manual electrical work shall be performed by workmen employed under the terms of this Agreement. No workman shall himself become a contractor for the performance of any electrical work covered under the terms of this Agreement unless and until he becomes signatory to this Agreement.

Employees or applicants for employment holding license as an Electrical Contractor in the State of California shall inactivate their license in accordance with Division III, Chapter 9, Section 7076.5 of the Business and Professions Code before being accorded the use of referral facilities available under this Agreement.

#### Section 3.27

Workmen employed under the terms of this Agreement shall do all electrical construction, installation, or erection work, including, but not limited to [REDACTED] PVC, EMT, P&C ducts and all Electrical conduit raceway, wireway, and bussduct

systems, [REDACTED] including [REDACTED] the final running tests and all electrical maintenance thereon. [REDACTED] This shall include the installation, maintenance, [REDACTED] of all electrical lighting and [REDACTED] the installation and maintenance of temporary wiring including all work pertaining to luminous ceilings, heat and power equipment, electronic equipment and apparatus, and all work pertaining to communications systems, including fiber optics. Handling and moving of all electrical material, [REDACTED], equipment and apparatus on the jobs shall be considered electrical work. [REDACTED]

### Section 3.28

All work joining, splicing, and insulating, and the placing of flame proof covering where wiped lead joints are necessary and the installation of potheads, oil switches, and oil fuse cutouts shall be performed by Cable Splicers. Journeymen only shall be used in assisting Cable Splicers on energized circuits. Cable Splicers shall not be required to work on wire or cables when the difference in potential is over three hundred (300) volts between any two (2) conductors or between any conductor and ground unless assisted by another Journeyman Wireman. In no case shall Cable Splicers be required to work on energized cables carrying an excess of four hundred and forty (440) volts. This section shall not be construed to mean the Journeymen applying factory kits shall receive Splicer wages.

### Section 3.29

All drop cord fixtures, repair and the preparation of conduit shall be done only under the direct supervision of a Journeyman, whether in the shop or on the job as a part of the work to be performed under this Agreement. Such work shall also include welding, burning, brazing, bending, drilling, and shaping of all copper, angle iron, and, brackets to be used in connection with the installation and erection of electrical wiring equipment. The chasing and channeling necessary to complete electrical installation work shall be performed by workmen employed under the terms of this Agreement.

# Section 3.30

The cutting, threading and bending of all conduits and nipples whether by hand or machine, shall be performed by workmen employed under the terms of this Agreement and where pipe cutting and threading machines are used on the job, such workmen shall also operate such machines.

Section 3.31 [REDACTED]

Section 3.32 [REDACTED]
