HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE: Provider seeking remuneration for 99070 NDC 60505006502 (Omeprazole) x 100 Units for date of service 08/24/2015.**
- The Claims Administrator denied service with the following rationale: “service not authorized during the Utilization Review process.”
- CPT 99070, a status indicator “**B**,” and is **bundled** into the main procedure performed and is **not separately reimbursable**.
- §9789.12.8 Status Codes - The Medicare Status Codes have been adapted for workers' compensation and have the following meanings: B = Bundled Code. Payment for covered services are always bundled into payment for other services not specified. If RVUs are shown, they are not used for payment. If these services are covered, payment for them is subsumed by the payment for the services to which they are incident.
- Incorrect CPT code for dispensed medication with expected reimbursement.
- **CCR Article 5.5.0. Rules § 9792.5.7.** Requesting Independent Bill Review (b)(2) **The proper selection of an analogous code** or formula based on a fee schedule adopted by the Administrative Director, or, if applicable, a contract for reimbursement rates under Labor Code section 5307.11, unless the fee schedule or contract allows for such analogous coding.
- 99070 is not the correct reimbursement code for dispensed medication. HCPCS Code S5000 Prescription drug, generic, is a “By Report” code utilized for medication dispensed in an Outpatient Office setting.
- PR-2 submitted does not document if medication was prescribed or dispensed and amount.
- Documentation does not support amount billed.

- Based on the aforementioned documentation and guidelines, reimbursement is not indicated for 99070.

The table below describes the pertinent claim line information.
