IMR Application Received:	8/30/2013
MAXIMUS Case Number:	CM13-0018561

- 1) MAXIMUS Federal Services, Inc. has determined the request for **consult for True Sleep (sleep study) is not medically necessary and appropriate.**

INDEPENDENT MEDICAL REVIEW DECISION AND RATIONALE

An application for Independent Medical Review was filed on 8/30/2013 disputing the Utilization Review Denial dated 8/19/2013. A Notice of Assignment and Request for Information was provided to the above parties on 10/11/2013. A decision has been made for each of the treatment and/or services that were in dispute:

- 1) MAXIMUS Federal Services, Inc. has determined the request for **consult for True Sleep (sleep study) is not medically necessary and appropriate.**

Medical Qualifications of the Expert Reviewer:

The independent Medical Doctor who made the decision has no affiliation with the employer, employee, providers or the claims administrator. The physician reviewer is Board Certified in Neurology, has a subspecialty in Sleep Medicine and is licensed to practice in California. He/she has been in active clinical practice for more than five years and is currently working at least 24 hours a week in active practice. The Expert Reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and treatments and/or services at issue.

Expert Reviewer Case Summary:

According to an orthopedic consultation note dated 5/31/13, the patient has difficulty sleeping on her right side. No other physician notes document any sleep complaints, including difficulty staying asleep at night, daytime sleepiness, snoring, or witnessed apneas.

Documents Reviewed for Determination:

The following relevant documents received from the interested parties and the documents provided with the application were reviewed and considered. These documents included:

- [REDACTED]

1) Regarding the request for consult for True Sleep (sleep study):

Section of the Medical Treatment Utilization Schedule Relied Upon by the Expert Reviewer to Make His/Her Decision

The Claims Administrator based its decision on the CA MTUS, which is part of the MTUS.

The Expert Reviewer found that no section of the MTUS was applicable. Per the Strength of Evidence hierarchy established by the California Department of Industrial Relations, Division of Workers' Compensation, the Expert Reviewer based his/her decision on Practice Parameters for the Indications for Polysomnography and Related Procedures: An Update for 2005 (Sleep, Volume 28, no. 4, 2005.)

Rationale for the Decision:

The employee has difficulty sleeping on the employee's side. There is no documentation in the medical records provided for review about any sleep complaint that would warrant sleep testing. Specifically, there is no documented history of snoring, apneas, daytime sleepiness, or primary insomnia. **The request for consult for True Sleep (sleep study) is not medically necessary and appropriate.**

Effect of the Decision:

The determination of MAXIMUS Federal Services and its physician reviewer is deemed to be the final determination of the Administrative Director, Division of Workers' Compensation. With respect to the medical necessity of the treatment in dispute, this determination is binding on all parties.

In accordance with California Labor Code Section 4610.6(h), a determination of the administrative director may be reviewed only if a verified appeal is filed with the appeals board for hearing and served on all interested parties within 30 days of the date of mailing of the determination to the employee or the employer. The determination of the administrative director shall be presumed to be correct and shall be set aside only upon proof by clear and convincing evidence of one or more of the grounds for appeal listed in Labor Code Section 4610.6(h)(1) through (5).

Sincerely,

Paul Manchester, MD, MPH
Medical Director
