Documents Reviewed for Determination:

- Utilization Review Determination
- Medical Records from Claims Administrator
- Medical Treatment Utilization Schedule (MTUS)

- 1) **Regarding the request for retrospective Medrox patches #15 (DOS: 06/14/13) w/one (1) refill QTY: 30.00 :**

Section of the Medical Treatment Utilization Schedule Relied Upon by the Expert Reviewer to Make His/Her Decision

The Claims Administrator based its decision on the MTUS, page 111-113, which is part of the MTUS.

The Expert Reviewer based his/her decision on the Chronic Pain Medical Treatment Guidelines, topical analgesics, capsaicin, page 28, which is part of the MTUS.

Rationale for the Decision:

Capsaicin is a component of Medrox. Medrox contains 0.0375% capsaicin. The MTUS Chronic Pain guidelines specifically states that there is no current indication that this increase over a 0.025% formulation would provide any further efficacy. Therefore, MTUS does not recommend 0.0375% capsaicin. As per MTUS if one component is not recommended the entire medication is not recommended. **The request for retrospective Medrox patches #15 (DOS: 6/14/13) w/one (1) refill QTY: 30:00 is not medically necessary and appropriate.**

2) Regarding the request for retrospective Dendracin Lotion 120 ml (DOS :06/14/13) w/one (1) refill QTY: 2.00 :
