Subject: Petition to Rescind The COVID-19 Prevention Non-Emergency Regulations

CAUTION: [External Email]

This email originated from outside of our DIR organization. Do not click links or open attachments unless you receive them directly from the sender and know the content is expected and is safe. If in doubt reach out and check with the sender by phone.

Dear Chairman David Thomas and Board Members,

I hereby Petition, and further request, that the Standard Board under its own motion convene an emergency meeting to rescind the COVID-19 Prevention Non-Emergency Regulations, based on new information provided by confirmed scientific studies and federal health authorities, including but not limited to Dr. Anthony Fauci and the CDC. Here are the specific facts that justify my request:

1. The CDC has recently declared the SARS-CoV-2/COVID-19 virus to be, and to be treated as, nothing more than a typical flu. [\[1\]](#) Dr. Fauci confirmed this would be the case on a paper he co-authored with Dr. Robert Redfield, then head of the CDC, in March 26, 2020, at the beginning of the pandemic, noting that, *"the overall clinical consequences of Covid-19 may ultimately be more akin to those of a severe seasonal influenza."* [\[2\]](#)

2. Natural immunity, as has been known for hundreds of years, is the best way to be immunized COVID-19. [\[3\]](#) and natural immunity last much longer than the COVID-19 vaccines. [\[4\]](#)

3. It has been proven that COVID-19 vaccines do not stop a person from getting COVID-19, as well as proven not to stop transmission to others. [\[5\]](#)

4. Masks have been proven to be worthless in trying to stop the transmission of a virus, including COVID-19. [\[6\]](#)

5. Dr. Fauci recently confirmed in a congressional meeting that the 6-foot distancing policy encouraged to avoid transmission has no scientific basis to it helping stop the transmission of COVID-19. [\[7\]](#)

6. Both Fauci and the World Health Organization have confirmed that alleged infected and asymptomatic carriers of the COVID-19 virus historically rarely transmit and are not the drivers of transmission of viruses to others, making it unnecessary to exclude from the job site any person that might test positive for COVID-19 without symptoms. [\[8\]](#)

7. PCR tests have been proven to not detect the COVID-19 virus specifically, and to give inaccurate and often false results as to whether a person is infected or not. [\[9\]](#)

This request is based on the fact that the COVID-19 non-emergency regulations pose an inconvenient, time consuming, costly, and unnecessary burden on employers in the state of California, especially because these regulations are tied to California Department of Public Health declarations on how to treat COVID-19, which have continued to vary since the inception of this recent version of the temporary regulation, that employers are expected to be aware of and take action on.

At this stage of the potential threat of the COVID-19 virus, failure to rescind these regulations would be arbitrary and capricious, and an abuse of discretion. It is time to follow all other states that have rescinded similar regulations pertaining to COVID-19.

Your prompt attention to this petition is greatly appreciated by me and all of California's industries and their employees.

Respectfully submitted,
Ricardo Beas
