San Mateo County

BURGLAR ALARM AND FIRE ALARM INSTALLATION

The Department has issued several important notices specifying the prevailing rate of pay for the installation of burglar and fire alarms. The notices provide a summary of the applicable rates of pay for burglar and fire alarm installation by county. To view the important notices, please visit the [Director's General Prevailing Wage Determinations website for Important Notices Archive](#).

For Burglar Alarm installation and Fire Alarm installation performed in San Mateo County, the minimum rate of pay determinations are issued on a "Project-by-Project basis."

SCOPE OF WORK

Section 3.15. Workers employed under the terms of this agreement shall do [REDACTED] electrical work. This includes the handling, installing, or moving of all related material and equipment from the first point of drop at the jobsite through final installation. This installation shall include all electrical lighting, heating, and power systems. Controlling, using or producing electrical energy, such as management, photovoltaic or solar technology principles are to be included as part of this scope of work. All systems and related electrical equipment, such as, motor control centers, transformers, power supplies, and storage cells are to be installed and wired on site by the covered employees.

Also covered under this agreement, will be such work on site as the welding, brazing, burning, cutting, bending, drilling and shaping of all brackets, supports or fittings that are fabricated or prefabricated which are specific parts of the installation of the electrical work or equipment. Such work that has to be certified and/or x-rayed may be sublet. This section shall not apply to the use of catalog items, fabricated or prefabricated which are approved and are in conformance with applicable law; Modified catalog items must have been modified by members of the IBEW. The installation of conduit, lighting poles and other electrical equipment will also be included under this scope. All related items above or below grade including cable tray, conduit, duct bank, ladder rack, and supports for electrical systems, shall be installed on-site by employees covered by this agreement. Electrical Work as covered by this Agreement shall include the handling of all related materials and equipment from the first point of delivery at the job site through the final installation.

MATERIAL MAKEUP

Section 3.16. It is mutually agreed and understood that on any electrical and/or electronic construction job, the Electrical and/or Electronic Contractor shall install all electrical and/or electronic work, including the connecting of all fixtures, appliances, motors, equipment, electronic devices, electronic systems or communication systems, with all related control wiring and devices, to and including running a test and any related instrumentation work or radiation monitoring under prevailing construction scale. This shall also include such work as on-the-job welding, burning, brazing, bending, drilling, and shaping of all copper, channel iron, angle iron, eye beams, and brackets that are a specific part of the installation and erection of electrical work and equipment on the job site.

It is further agreed and understood by the parties that the work of assembling and installing electrical materials on the job site in order to complete an electrical system, such as circuit wiring to be supplied to electrical equipment and devices normally performed by qualified Inside Wiremen, shall be included in the scope of work covered by this Agreement.

The policy of the members of the Local Union is to promote the use of materials and equipment manufactured, processed, or repaired under economically sound wage hour and working conditions by other members of the International Brotherhood of Electrical Workers.

MEMORANDUM OF UNDERSTANDING – SCOPE OF WORK

IBEW Local Union No. 617 and the San Mateo County Chapter, NECA agree all work on what is commonly referred to as Emergency Responder Radio Communications Systems (ERRCS) and Distributed Antenna Systems (DAS) that are part of ERRCS and are required in buildings having floors located more than 75 feet above the lowest floor having building access may be performed under the Northern California, Addendum No. 2 to the 9th District Sound and Communications Agreement.

All work performed under this memorandum of understanding shall require payment of the equivalent Inside Wiremen Wage and Fringe Package.

All work performed on ERRCS and DAS not covered by this MOU shall be performed in accordance with the provisions in the Northern California, Addendum No. 2 to the 9th District Sound and Communications Agreement.

This memorandum of understanding is coterminous with the Northern California, Addendum No. 2 to the 9th District Sound and Communications Agreement.
