PREDETERMINED INCREASE

CRAFT/CLASSIFICATION:

Laborer and Related Classifications (Engineering Construction)

DETERMINATION:

SD-23-102-3-2026-1

LOCALITIES:

All localities within San Diego County

This predetermined increase for the above named craft applies only to the current determination for work being performed on public works projects with bid advertisement dates on or after **October 9, 2026**, until this determination is superseded by a new determination or a predetermined increase modification notice becomes effective.

When referencing our prevailing wage determinations, please note that if the prevailing wage rate determination which was in effect on the bid advertisement date of a project, has a single asterisk (*) after the expiration date, the rate will be good for the life of the project. However, if a prevailing wage rate determination has double asterisks (**) after the expiration date, the rate must be updated on the following date to reflect the predetermined rate change(s).

LABORER: Engineering Construction – All Groups

Determination SD-23-102-3-2026-1 is currently in effect and expires on June 30, 2027**.

Effective July 1, 2027, there will be an increase of \$3.66 to be allocated to wages and/or fringes.

Effective July 1, 2028, there will be an increase of \$3.76 to be allocated to wages and/or fringes.

Effective July 1, 2029, there will be an increase of \$4.01 to be allocated to wages and/or fringes.

There will be no further increases applicable to this determination.

Issued 9/29/2026, Effective 10/9/2026 until superseded.

This page will be updated when wage rate breakdown becomes available.

MEMORANDUM OF AGREEMENT

REGARDING SAN DIEGO LABORERS MASTER LABOR AGREEMENT (BUILDING CONSTRUCTION) AND SAN DIEGO LABORERS MASTER LABOR AGREEMENT (ENGINEERING CONSTRUCTION)

The Southern California District Council of Laborers and Laborers Local 89 (Union) and the Associated General Construction of America, San Diego Chapter, Inc. are parties to the San Diego Laborers Master Labor Agreement (Building Construction) and the San Diego Laborers Master Labor Agreement (Engineering Construction), and agree as follows:

1. The San Diego Laborers Master Labor Agreement (Building Construction) covers all work in the construction of Type I through 5 buildings.
2. The San Diego Laborers Master Labor Agreement (Engineering Construction) covers all construction work not covered by the San Diego Laborers master Labor Agreement (Building Construction).
6. Section 25.F. 11 Delete Specialty Group: Gunite; Group I - Rebound Man; Group II - Gun Man; Group III - Nozzleman; Group III - Rod Man

SECTION 4 WORK COVERED BY THIS AGREEMENT

A. 1. The Contractor may serve as a Construction Manager; Developer, Builder; or Owner-Builder. The with provisions of this contract apply to the Contractor only when the Contractor is performing with his own forces or when the Contractor subcontracts the performance of, the construction, alteration, modification, improvement, or repair, in whole or part of a structure, or other jobsite construction work within the recognized jurisdiction of the Union. The agreement shall apply to and cover all hours of employment of each employee performing jobsite work.

B. This Agreement shall cover all engineering work coming within the claimed jurisdiction of the Laborers' International Union of North America, including the following:

- (1) It shall cover work on heavy highway and engineering construction, including the construction of, in whole or in part, or in improvement or modification thereof, including any structure or operations which are incidental thereto, the assembly, operation, maintenance and repair of all equipment, vehicles, and other facilities, including helicopters used in connection with the performance of the aforementioned work and services and including without limitation the following types or classes of work.
- (2) Street and highway work, grading and paving, excavation of earth and rock, including non-destructive utility line location (hydrovac operations), grade separations, elevated highways, viaducts, bridges, abutments, retaining walls, subways, airport grading, surfacing and drainage, electric transmission line and conduit projects, underground communication and conduit installation, fiberoptic installation, blowing, splicing, testing and related work for telephone, T.V. or other communication transmission through underground conduit, water supply, water development, reclamation, irrigation, draining and flood control projects, water mains, pipe lines, sanitation and sewer projects, dams, aqueducts, canals, reservoirs, intakes, channels, levees, dikes, revetments, quarrying of breakwater or riprap stone, foundations, pile driving, piers, locks, river and harbor projects, breakwaters, jetties, dredging, tunnels.
- (3) The construction, erection, alteration, repair, modification, demolition, addition or improvement, in whole or in part, of any incidental building structure, including oil or gas refineries and incidental structures, solar energy installations and appurtenances thereto, also including any grading, excavation,

or similar operations which are incidental thereto, or the installation, operation, maintenance and repair of equipment, and other facilities used in connection with the performance of such building construction except where such structures are an incidental or supplemental part of highway and engineering construction, as defined in this Section.

- (4) All work involved in laying and installation of pipe outside of an incidental building, structure or other work, regardless of the material used or substance conveyed.
- (5) All work involved in laying and installation of pipe both outside and within sewage filtration and water treatment plants, including, but not limited to, mechanical and pressurized pipe within.
- (6) All work involved in laying and installation of landscaping irrigation pipe.
- (7) All work assigned to the Laborers in connection with the repairing of power tools on the jobsite. All work performed in the Contractor's warehouses, shops or yards which have been particularly provided or set up to handle work in connection with a job or project covered by the terms of this Agreement and all of the production or fabrication of materials by the Contractor for use on the project shall be subject to the terms and conditions of this Agreement.
- (8) Repairs necessitated by defects of material or workmanship or adjustments of newly purchased and/or installed equipment or machinery will not be subject to this Agreement when such repairs and/or adjustments are made by the manufacturer thereof or his agents or employees pursuant to the terms of a manufacturer's guarantee and the Union will not hamper such manufacturer or his agents or employees on such exempted work.
- (9) It is agreed that where demolition work is included under the terms of the job specifications of the General Contractor or subcontractor such work, including the salvage of the material from the buildings to be demolished, as limited by the definition of "Demolition Laborer, the Cleaning of Brick and Lumber" contained in the wage scale, shall be performed by a person, firm or corporation signatory to this Agreement.

Subject to Paragraphs B, D and F of this Section, it is agreed that Laborers' work shall include but not be limited to:

- (10) All work necessary to tend all other building trades craftsmen, including stripping of concrete forms, handling and raising of slip forms, sewer cleaners, gardening, horticulture, landscaping, trackmen (construction, maintenance and repair), cleanup of debris, grounds and buildings, the unloading of trucks and moving of equipment and all General Laborers' work. The hoisting of rods except when a derrick or outrigger operated by other than hand power is used is claimed as Laborers' work, also the erection and dismantling of scaffolding regardless of height.

- (13) Preparation, installation and application of epoxy, including the setting of dowels.
- (14) All work in the excavation, grading, preparation, concreting, asphalt and mastic paving, paving, ramming, curbing, flagging, traffic control by any method, and laying of other stone materials, and surfacing of streets, ways, courts, underpasses, overpasses and bridges.
- (15) All work in connection with the operation of spreader boxes, such as True-Lay, Rola Pavers and Laytons or similar type models, including but not limited to shoveling and shifting material and cleaning of boxes.
- (16) All work in connection with the cutting of streets and ways for all purposes, including aligning by any method, digging of trenches, manholes, etc., handling and conveying of all materials for same; concrete of same; and the backfilling, grading and resurfacing of same.
- (17) All work in connection with the construction of caissons, cofferdams, subways, aqueducts, irrigation water lines, culverts, flood controls, and both metallic and non-metallic drains and sewers, any type of conduit, no-joint pipe, including the cribbing, lagging, bracing, sheeting and checking grade for pipe laying, trench jacking and handling of hand-guided lagging hammers on all open trenches and ditches.
- (18) All work in connection with the shoring and under-pinning, including cutting, fitting, placing and raising, of all structures, soldier beams and sheet beams.
- (19) All work in connection with drilling, all work of loading, placing and blasting of all powder and explosives of whatever type, regardless of the method used for such loading and placing. All power drills (whether core, diamond, wagon, track, multiple unit or other) and any and all types of mechanical drills without regard to motive power, size of drill bit, or self-contained nature of the machine.

(20) [REDACTED]

(21) All work involved in the construction, replacement, alteration or modification of all rail lines, including salvage, demolition and take up, on main lines, siding, service lines or on any structures part of or appurtenant to such facilities, whether located on railroad, public or private property and rights of way of any sort.

(22) All signaling and rigging in connection with Laborers' work.

(23) All work in connection with the wrecking of buildings and structures as limited by the definition of "Demolition Laborer, the Cleaning of Brick and Lumber" contained in the wage scale.

(24) All work in connection with the slinging, handling and placing of all riprap, rock and stone on highways, jetties, retaining walls or wherever used, wrecking yards and wrecking work on construction and/or razing sites.

(25) The operation of remote-controlled robotic equipment in connection with Laborers' work.

(26) Mechanically stabilized earthen wall construction and installation.

(27) All work on precasting or prefabrication at the construction project site or at a precast or prefabrication yard specifically established and operated for that one particular construction job.

(28) All stocking and distribution of drywall material after it has been delivered to the jobsite; general cleanup of drywall scrap, framing scrap, lathing scrap, roofing scrap, plastering scrap, electrical scrap and associated materials; jobsite distribution of all appliances, ranges and furniture as well as cleanup work associated therewith.

(29) The installation of all forms of fencing of any type or material including but not limited to chain link, V-mesh, rectangular and square mesh fabrics, revetments, wire netting and barb wire, baseball backstops, tennis courts, cribs, cages, window guards and safety screens, interior and exterior. All screens including panels of metal, fiberglass, glass or synthetic materials. Metal corrals, pens, runs or enclosures. Metal and wood guard rail, road markers and street signs. Post and cable or chain fences or barriers. Installation of recreational game equipment including swings, slides, climbing structure, basketball backstops, net post and bars. Installation of metal gates and mechanical operators. Balcony railings where wire mesh, metal or wood panels are involved. Flag poles and street subdivision identification sign posts. All post hole drilling or excavation and the driving of fence posts for the work described above. The loading, moving and unloading of fencing materials.

(30) Installation and cutting of pavers and paving stone.

(31) [REDACTED]

C. Classifications listed in this Agreement which are not listed under this Section shall be included in the coverage and description of Laborers' work claimed just as though incorporated in full in this Section. This does not restrict the Laborers from performing other work.

D. It is agreed that work covered by the following Union agreements:· Plaster Tenders, Brick Tenders, Tunnel, Horizontal Directional Drilling, Asbestos, Parking and Highway Improvement and Landscape (referred to as "Satellite Agreements") are a part of the work description covered by this Agreement and are a part of the bargaining unit work covered by this Agreement. To the extent that any work covered by such agreement is encompassed by any construction agreement being performed by or let to the Contractor, such other wages, hours and economic terms of employment shall be considered a part of this Agreement by reference. If the Union has a Satellite Agreement for San Diego County only, that Satellite Agreement shall apply to the work. If the Union has no Satellite Agreement covering San Diego only, the Union's Satellite Agreement covering the Southern California area shall apply to the work in San Diego County, including the provisions for wages and fringe benefit contributions. It is agreed that the foregoing work is unit work and as such the subcontracting provisions of Section 27 shall be applicable to such work.

E. This Agreement shall not prevent the Contractor from negotiating or making agreements with the Laborers' Union for any work or classification not covered by this Agreement.

F. Whenever any work covered by this Agreement is to be eliminated or modified by the introduction of any new machine, mechanized process, new or different materials, or new or different method or technology with respect to the performance of such work, persons employed under this Agreement and subject thereto, will be given preference for employment and will be assigned such work where it is not in conflict with International jurisdictional agreements with respect to such new machine, mechanized process, new or different material, or new or different method or technology; and the use of any such new machine, mechanized process, new or different material, or new or different method or technology shall be subject to and covered by this Agreement, regardless of the nature, size or characteristics of such new machine, mechanized process, new or different material, or new or different method or technology.

G. Work involved in laying and installation of pipe which is covered by this Agreement shall include, but shall not be limited to:

1. All work incidental to the laying of pipe, the unloading, handling and distribution of all pipe, fittings, tools, materials and equipment, and laser beam operation.
2. Industrial pipe fitting in connection with Laborers' work.
3. All inside pipe coating or lining by any method including joint finishing; pipe bursting.

4. Welding, certified or otherwise in connection with Laborers' work.
5. Installation of low voltage automatic irrigation and lawn sprinkler systems, including but not limited to installation of automatic controllers, valves, sensors, master control panels, display boards, junction boxes and conductors including all components thereof.
6. Installation of valve boxes, thrust blocks, both precast & poured in place, pipe hangers & supports incidental to installation of the entire piping system.
7. Start-up testing, flushing, purging, water balancing, placing into operation all piping equipment, fixtures and appurtenances installed under this Agreement.
8. Any line inside a structure which provides water to work covered by this Agreement, including piping for ornamental pools and fountains when done in conjunction with landscaping.
9. All piping for ornamental stream beds, waterways and swimming pools.
10. All piping for sewers and drain lines and all preparation on the jobsite allied directly thereto, including fabrication, replacement, repair and service of such installations.
11. All temporary irrigation and lawn sprinkler systems, all temporary water lines.
12. All decorative landscaping, such as decorative pools, ponds, reflecting units, hand grade landscaped areas, finish grade, spread top soil, build mounds, trenching by normal methods, backfill trenches, seed lawns, lay sod, use of ground cover such as flatted materials, riprap, gravel & rock, crushed rock, pea gravel and all other landscapable ground covers, installation of header boards and mowing edges, soil preparation such as wood shavings, fertilizers (organic, chemical or synthetic), top dress ground cover areas with bark or any wood, residual or other specified top dressing.

H. All work in connection with the handling, control, removal, abatement, encapsulation or disposal of toxic waste. The work tasks shall include, but not be limited to, the erection, moving, servicing and dismantling of all enclosures, scaffolding, barricades, etc., and the operation of all tools and equipment used in the handling, control, removal or disposal of toxic waste; as well as the bagging, cartoning, crating, or otherwise packaging of materials for disposal.

I. All work in connection with traffic control, including but not limited to flagging, signaling, assisting in the moving and installation of barriers and barricades, including k-rail, safety borders and all equipment; operation of pilot trucks.

J. All work in connection with geotechnical, toxic or hazardous waste, environmental remediation, environmental investigation, anode or cathodic protection drilling, including but not limited to helper, drilling crew foreman, operation of geotechnical or

environmental drills and development equipment without regard to motive power, size of drill bit or gig, type or method of drilling or self contained nature of the machine. Drills include but are not limited to Central Mine Equipment (CME), Foremost, Geoprobe or other similar makes. Covered work in this paragraph and in corresponding classifications does not include accredited/licensed professional consultants.

LETTER DATED MAY 6, 2008 FROM SOUTHERN CALIFORNIA DISTRICT COUNCIL OF LABORERS

The letter provides descriptions of work classifications for the following:

Group 1

Certified Confined Space Laborer: This is a Laborer, performing Laborer work, who is working in a confined space as defined under OSHA regulations (T8 CCR Article 108, sections 5156-5158). The Laborers provide a Training Course which provides Certification following OSHA curricula.

Laborer, Asphalt, Rubber Material Loader: A Laborer that is required to add rubberized material into a hopper in order to mix with asphalt. This is for operations performed in the field and not at a batch plant.

Group 3

Asphalt Installation of all fabrics: This person unloads and stages 10-12 foot wide material (fabric) spools to be laid out by oiler truck (spools are attached by Laborer to apparatus attached to asphalt oiler truck). Laborer secures overlap of seams and trims edges immediately preceding asphalt overlay.

C. Parking

In the event free parking facilities are not available within three hundred and fifty (350) yards of a jobsite, the individual Employer will provide such facilities and the individual Employer shall have the right to designate parking areas to be used. Where, because of congested parking conditions, it is necessary to use public facilities, the Employer shall reimburse the employee for the cost of such parking upon being presented with a receipt or voucher certifying to the cost thereof, such reimbursement to be made on a weekly basis or at the conclusion of the project, whichever occurs earlier. Designated parking areas shall be reasonably level and graded to drain.

E. Jobsite Transportation

Whenever, because of remoteness of parking areas, hazardous road conditions or security restrictions, the Employer is required to furnish transportation for men within the jobsite to the place of their "work," this transportation shall be equipped with seats and handrails.

I. Subsistence

1. Subsistence shall be paid at the rate of one hundred (\$100.00) per scheduled workday for work bid on or after July 1, 2026, and the rate of forty-five dollars (\$45.00) per scheduled workday for all work bid prior to July 1, 2026. There shall be no prorating of subsistence. Subsistence shall apply to workmen and/or employees who report to work and for whom no work is provided.
2. Subsistence as provided in Paragraph 1-1 hereof shall be paid on jobs on the following offshore islands: Richardson Rock, San Miguel Island, Santa Cruz Island, Santa Barbara Island, Arch Rock, San Clemente Island, San Nicholas Island, Santa Rosa Island, Santa Catalina Island, Anacapa Island
 - (a) Employees reporting at the embarkation point for travel to the above named islands shall be paid travel time from the mainland to the islands and return at the straight-time rate and in no event shall the travel time be less than one (1) hour regardless of mode of travel.
3. In lieu of subsistence, the Contractor may provide and maintain acceptable room and board on or immediately adjacent to the project seven (7) days per week in compliance with California State Laws.

J. Employees shall travel to and from their daily initial reporting place on their own time and by means of their own transportation. The Contractor shall be responsible for payment of wages from the reporting point, as ordered by the Contractor, to the jobsite and from job to job and return. However, employees who voluntarily report to a point for free transportation to the jobsite will not be compensated from the time en route and return. For offshore work, employees will receive travel pay at straight-time rates from port of embarkation to jobsite and from jobsite to debarkation regardless of mode of transportation, which transportation shall be at the Contractor's expense. If no camp is furnished by the Contractor, such transportation shall be furnished daily.
