

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

Subchapter 7. General Industry Safety Orders

Adopt Section 3205 to read:

§ 3205. ~~“Shall” and “Should.” [Repealed]~~ COVID-19 Prevention.

(a) Scope.

(1) This section applies to all employees and places of employment, with the following exceptions:

(A) Work locations with one employee who does not have contact with other persons.

(B) Employees working from home.

(C) Employees with occupational exposure as defined by section 5199, when covered by that section.

(D) Employees teleworking from a location of the employee’s choice, which is not under the control of the employer.

(2) Nothing in this section is intended to limit more protective or stringent state or local health department mandates or guidance.

(b) Definitions. The following definitions apply to this section and to sections 3205.1 through 3205.4.

(1) “Close contact” means being within six feet of a COVID-19 case for a cumulative total of 15 minutes or greater in any 24-hour period within or overlapping with the “high-risk exposure period” defined by this section. This definition applies regardless of the use of face coverings.

EXCEPTION: Employees have not had a close contact if they wore a respirator required by employer and used in compliance with section 5144, whenever they were within six feet of the COVID-19 case during the high-risk exposure period.

(2) “COVID-19” means coronavirus disease, an infectious disease caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

(3) “COVID-19 case” means a person who:

(A) Has a positive “COVID-19 test” as defined in this section; or

(B) Has a positive COVID-19 diagnosis from a licensed health care provider; or

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

(C) Is subject to a COVID-19-related order to isolate issued by a local or state health official; or

(D) Has died due to COVID-19, in the determination of a local health department or per inclusion in the COVID-19 statistics of a county.

(4) "COVID-19 hazard" means potentially infectious material that may contain SARS-CoV-2, the virus that causes COVID-19. Potentially infectious materials include airborne droplets, small particle aerosols, and airborne droplet nuclei, which most commonly result from a person or persons exhaling, talking or vocalizing, coughing, or sneezing, or from procedures performed on persons which may aerosolize saliva or respiratory tract fluids. This also includes objects or surfaces that may be contaminated with SARS-CoV-2.

(5) "COVID-19 symptoms" means fever of 100.4 degrees Fahrenheit or higher, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea, unless a licensed health care professional determines the person's symptoms were caused by a known condition other than COVID-19.

(6) "COVID-19 test" means a viral test for SARS-CoV-2 that is:

(A) Approved by the United States Food and Drug Administration (FDA) or has an Emergency Use Authorization from the FDA to diagnose current infection with the SARS-CoV-2 virus; and

(B) Administered in accordance with the FDA approval or the FDA Emergency Use Authorization as applicable.

(7) "Exposed group" means all employees at a work location, working area, or a common area at work, where an employee COVID-19 case was present at any time during the high-risk exposure period. A common area at work includes bathrooms, walkways, hallways, aisles, break or eating areas, and waiting areas. The following exceptions apply:

(A) For the purpose of determining the exposed group, a place where persons momentarily pass through while everyone is wearing face coverings, without congregating, is not a work location, working area, or a common area at work.

(B) If the COVID-19 case was part of a distinct group of employees who are not present at the workplace at the same time as other employees, for instance a work crew or shift that does not overlap with another work crew or shift, only employees within that distinct group are part of the exposed group.

(C) If the COVID-19 case visited a work location, working area, or a common area at work for less than 15 minutes during the high-risk exposure period, and all persons were

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

wearing face coverings at the time the COVID-19 case was present, other people at the work location, working area, or common area are not part of the exposed group.

NOTE: An exposed group may include the employees of more than one employer. See Labor Code sections 6303 and 6304.1.

(8) "Face covering" means a surgical mask, a medical procedure mask, a respirator worn voluntarily, or a tightly woven fabric or non-woven material of at least two layers. A face covering has no visible holes or openings and must cover the nose and mouth. A face covering does not include a scarf, ski mask, balaclava, bandana, turtleneck, collar, or single layer of fabric.

(9) "Fully vaccinated" means the employer has documentation showing that the person received, at least 14 days prior, either the second dose in a two-dose COVID-19 vaccine series or a single-dose COVID-19 vaccine. Vaccines must be FDA approved or have an emergency use authorization from the FDA.

(10) "High-risk exposure period" means the following time period:

(A) For COVID-19 cases who develop COVID-19 symptoms, from two days before they first develop symptoms until all of the following are true: it has been 10 days since symptoms first appeared; 24 hours have passed with no fever, without the use of fever-reducing medications; and symptoms have improved.

(B) For COVID-19 cases who never develop COVID-19 symptoms, from two days before until 10 days after the specimen for their first positive test for COVID-19 was collected.

(11) "Outdoor mega event" means an event that includes over 10,000 participants or spectators outdoors and may include conventions, shows, outdoor nightclubs, concerts, sporting events, theme parks, fairs, festivals, large races, and parades.

(12) "Respirator" means a respiratory protection device approved by the National Institute for Occupational Safety and Health (NIOSH) to protect the wearer from particulate matter, such as an N95 filtering facepiece respirator.

(13) "Worksite," for the limited purposes of COVID-19 prevention regulations only, means the building, store, facility, agricultural field, or other location where a COVID-19 case was present during the high-risk exposure period. It does not apply to buildings, floors, or other locations of the employer that a COVID-19 case did not enter.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

NOTE: The term worksite is used for the purpose of notice requirements in subsections (c)(3)(B)3. and 4. only.

(c) Written COVID-19 Prevention Program. Employers shall establish, implement, and maintain an effective, written COVID-19 Prevention Program, which may be integrated into the employer's Injury and Illness Prevention Program required by section 3203, or be maintained in a separate document. The written elements of a COVID-19 Prevention Program shall include:

(1) System for communicating. The employer shall do all of the following in a form readily understandable by employees:

(A) Ask employees to report to the employer, without fear of reprisal, COVID-19 symptoms, possible close contacts, and possible COVID-19 hazards at the workplace.

(B) Describe how employees with medical or other conditions that put them at increased risk of severe COVID-19 illness can request accommodations.

(C) Provide information about access to COVID-19 testing as described in subsection (c)(5)(I) when testing is required under this section, section 3205.1, or section 3205.2.

(D) In accordance with subsection (c)(3)(B), communicate information about COVID-19 hazards and the employer's COVID-19 policies and procedures to employees and to other employers, persons, and entities within or in contact with the employer's workplace.

NOTE: See subsection (c)(3)(C) for confidentiality requirements for COVID-19 cases.

(2) Identification and evaluation of COVID-19 hazards.

(A) The employer shall allow for employee and authorized employee representative participation in the identification and evaluation of COVID-19 hazards.

(B) The employer shall develop and implement a process for screening employees for and responding to employees with COVID-19 symptoms. The employer may ask employees to evaluate their own symptoms before reporting to work. If the employer conducts screening at the workplace, the employer shall ensure that face coverings are used during screening by both screeners and employees and, if temperatures are measured, that non-contact thermometers are used.

(C) The employer shall develop COVID-19 policies and procedures to respond effectively and immediately to individuals at the workplace who are a COVID-19 case to prevent or reduce the risk of transmission of COVID-19 in the workplace.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

- (D) The employer shall conduct a workplace-specific identification of all interactions, areas, activities, processes, equipment, and materials that could potentially expose employees to COVID-19 hazards. Employers shall treat all persons, regardless of symptoms or negative COVID-19 test results, as potentially infectious.
1. This shall include identification of places and times when people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not, for instance during meetings or trainings and including in and around entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.
 2. This shall include an evaluation of employees' potential workplace exposure to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. Employers shall consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing stationary work.
- (E) For indoor locations, the employer shall evaluate how to maximize ventilation with outdoor air; the highest level of filtration efficiency compatible with the existing ventilation system; and whether the use of portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems, would reduce the risk of COVID-19 transmission.
- (F) The employer shall review applicable orders and guidance from the State of California and the local health department related to COVID-19 hazards and prevention. These orders and guidance are both information of general application, including CDPH's Interim guidance for Ventilation, Filtration, and Air Quality in Indoor Environments, and information specific to the employer's industry, location, and operations.
- (G) The employer shall evaluate existing COVID-19 prevention controls at the workplace and the need for different or additional controls. This includes evaluation of controls in subsections (c)(4), and (c)(6) through (c)(8).
- (H) The employer shall conduct periodic inspections as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with employers' COVID-19 policies and procedures.
- (3) Investigating and responding to COVID-19 cases in the workplace.
- (A) Employers shall have an effective procedure to investigate COVID-19 cases in the workplace. This includes procedures for seeking information from employees

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

regarding COVID-19 cases and close contacts, COVID-19 test results, and onset of COVID-19 symptoms, and identifying and recording COVID-19 cases.

(B) The employer shall take the following actions when there has been a COVID-19 case at the place of employment:

1. Determine the day and time the COVID-19 case was last present and, to the extent possible, the date of the positive COVID-19 test(s) and/or diagnosis, and the date the COVID-19 case first had one or more COVID-19 symptoms, if any were experienced.

2. Determine who may have had a close contact. This requires an evaluation of the activities of the COVID-19 case and all locations at the workplace which may have been visited by the COVID-19 case during the high-risk exposure period.

NOTE: See subsection (c)(10) for exclusion requirements for employees after a close contact.

3. Within one business day of the time the employer knew or should have known of a COVID-19 case, the employer shall give written notice, in a form readily understandable by employees, that people at the worksite may have been exposed to COVID-19. The notice shall be written in a way that does not reveal any personal identifying information of the COVID-19 case. Written notice may include, but is not limited to, personal service, email, or text message if it can reasonably be anticipated to be received by the employee within one business day of sending. The notice shall include the disinfection plan required by Labor Code section 6409.6(a)(4). The notice must be sent to the following:

a. All employees at the worksite during the high-risk exposure period. If the employer should reasonably know that an employee has not received the notice, or has limited literacy in the language used in the notice, the employer shall provide verbal notice, as soon as practicable, in a language understandable by the employee.

b. Independent contractors and other employers at the worksite during the high-risk exposure period.

4. Within one business day of the time the employer knew or should have known of the COVID-19 case, the employer shall provide the notice required by Labor Code section 6409.6(a)(2) and (c) to the authorized representative of any employee at the worksite during the high-risk exposure period.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

5. Make COVID-19 testing available at no cost, during paid time, to all employees of the employer who had a close contact in the workplace and provide them with the information on benefits described in subsections (c)(5)(B) and (c)(10)(C), with the following exceptions:

- a. Employees who were fully vaccinated before the close contact and do not have COVID-19 symptoms.
- b. COVID-19 cases who returned to work pursuant to subsection 3205(c)(11)(A) or (B) and have remained free of COVID-19 symptoms, for 90 days after the initial onset of COVID-19 symptoms or, for COVID-19 cases who never developed symptoms, for 90 days after the first positive test.

6. Investigate whether workplace conditions could have contributed to the risk of COVID-19 exposure and what could be done to reduce exposure to COVID-19 hazards.

(C) Personal identifying information of COVID-19 cases or persons with COVID-19 symptoms, and any employee medical records required by this section or by sections 3205.1 through 3205.4, shall be kept confidential unless disclosure is required or permitted by law. Unredacted information on COVID-19 cases shall be provided to the local health department, CDPH, the Division, and NIOSH immediately upon request, and when required by law.

(4) Correction of COVID-19 hazards. Employers shall implement effective policies and/or procedures for correcting unsafe or unhealthy conditions, work practices, policies and procedures in a timely manner based on the severity of the hazard. This includes, but is not limited to, implementing controls and/or policies and procedures in response to the evaluations conducted under subsections (c)(2) and (c)(3) and implementing the controls required by subsections (c)(6) through (c)(8).

(5) Training and instruction. The employer shall provide effective training and instruction to employees that includes the following:

(A) The employer's COVID-19 policies and procedures to protect employees from COVID-19 hazards, and how to participate in the identification and evaluation of COVID-19 hazards under subsection (c)(2)(A).

(B) Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws. This includes any benefits available under legally mandated sick and vaccination leave, if applicable, workers'

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

compensation law, local governmental requirements, the employer's own leave policies, leave guaranteed by contract, and this section.

- (C) The fact that COVID-19 is an infectious disease that can be spread through the air when an infectious person talks or vocalizes, sneezes, coughs, or exhales; that COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth, although that is less common; and that an infectious person may have no symptoms.
- (D) Any methods of physical distancing implemented by the employer and the importance of face coverings. The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- (E) Whenever respirators are provided for voluntary use under this section or sections 3205.1 through 3205.4:
1. How to properly wear the respirator provided;
 2. How to perform a seal check according to the manufacturer's instructions each time a respirator is worn, and the fact that facial hair interferes with a seal.
- (F) The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- (G) Proper use of face coverings and the fact that face coverings are not respiratory protective equipment. COVID-19 is an airborne disease. N95s and more protective respirators protect the users from airborne disease while face coverings primarily protect people around the user.
- (H) COVID-19 symptoms, the importance of not coming to work and obtaining a COVID-19 test if the employee has COVID-19 symptoms, and the importance of vaccination against COVID-19.
- (I) Information on the employer's COVID-19 policies; how to access COVID-19 testing and vaccination; and the fact that vaccination is effective at preventing COVID-19, protecting against both transmission and serious illness or death.

(6) Physical distancing. Until July 31, 2021, employers shall comply with either subsection (A) or (B) for all employees working indoors or at outdoor mega events, as follows:

- (A) All employees shall be separated from other persons by at least six feet, except for employees wearing respirators required by the employer and used in compliance with

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

section 5144; where an employer can demonstrate that six feet of separation is not feasible; and momentary exposure while persons are in movement. Methods of physical distancing include: telework or other remote work arrangements; reducing the number of persons in an area at one time, including visitors; visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel; staggered arrival, departure, work, and break times; and adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees. When it is not feasible to maintain a distance of at least six feet, individuals shall be as far apart as feasible.

(B) All employees who are not fully vaccinated shall be provided respirators for voluntary use in compliance with subsection 5144(c)(2).

(7) Face coverings.

(A) Employers shall provide face coverings and ensure they are worn by employees over the nose and mouth when indoors, when outdoors and less than six feet away from another person, and where required by orders from the CDPH or local health department. Employers shall ensure face coverings are clean and undamaged. Face shields are not a replacement for face coverings, although they may be worn together for additional protection. The following are exceptions to the face coverings requirement:

1. When an employee is alone in a room, or when all persons in a room are fully vaccinated and do not have COVID-19 symptoms.
2. While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent feasible.
3. Employees wearing respirators required by the employer and used in compliance with section 5144.
4. Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person.
5. Specific tasks which cannot feasibly be performed with a face covering. This exception is limited to the time period in which such tasks are actually being performed.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

6. Employees who are fully vaccinated, when they are outdoors and do not have any COVID-19 symptoms.
- (B) Employees exempted from wearing face coverings due to a medical condition, mental health condition, or disability shall wear an effective non-restrictive alternative, such as a face shield with a drape on the bottom, if their condition or disability permits it.
- (C) Any employees not wearing a face covering pursuant to the exceptions in subsections (c)(7)(A)4. or 5., and not wearing a non-restrictive alternative when allowed by subsection (c)(7)(B), shall be at least six feet apart from all other persons unless the unmasked employee is either fully vaccinated or tested at least weekly for COVID-19 during paid time and at no cost to the employee. Employers may not use the provisions of subsection (c)(7)(C) as an alternative to face coverings when face coverings are otherwise required by this section.
- (D) No employer shall prevent any employee from wearing a face covering when not required by this section, unless it would create a safety hazard, such as interfering with the safe operation of equipment.
- (E) Employers shall implement measures to communicate to non-employees the face coverings requirements on their premises.
- (F) The employer shall develop COVID-19 policies and procedures to minimize employee exposure to COVID-19 hazards originating from any person not wearing a face covering, including a member of the public.
- (8) Other engineering controls, administrative controls, and personal protective equipment.
- (A) Subsection (c)(8)(A) applies until July 31, 2021, for all employees working indoors or at outdoor mega events, if the employer does not comply with subsection (c)(6)(B). At work stations where an employee is assigned to work for an extended period of time, such as cash registers, desks, and production line stations, and where physical distancing required by subsection (c)(6)(A) is not maintained at all times, the employer shall install cleanable solid partitions that effectively reduce transmission between the employee and other persons.
- (B) For buildings with mechanical or natural ventilation, or both, employers shall maximize the quantity of outside air provided to the extent feasible, except when the United States Environmental Protection Agency (EPA) Air Quality Index is greater than 100 for any pollutant or if opening windows or maximizing outdoor air by other means would cause a hazard to employees, for instance from excessive heat or cold.

TO

CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD

TITLE 8, DIVISION 1, CHAPTER 4

(C) Employers shall implement cleaning and disinfecting procedures, which require:

1. Identifying and regularly cleaning frequently touched surfaces and objects, such as doorknobs, elevator buttons, equipment, tools, handrails, handles, controls, phones, headsets, bathroom surfaces, and steering wheels. The employer shall inform employees and authorized employee representatives of cleaning and disinfection protocols, including the planned frequency and scope of cleaning and disinfection.
2. Cleaning of areas, material, and equipment used by a COVID-19 case during the high-risk exposure period, and disinfection if the area, material, or equipment is indoors and will be used by another employee within 24 hours of the COVID-19 case.

NOTE: Cleaning and disinfecting must be done in a manner that does not create a hazard to employees. See Group 2 and Group 16 of the General Industry Safety Orders for further information.

(D) To protect employees from COVID-19 hazards, the employer shall evaluate its handwashing facilities, determine the need for additional facilities, encourage and allow time for employee handwashing, and provide employees with an effective hand sanitizer. Employers shall encourage employees to wash their hands for at least 20 seconds each time. Provision or use of hand sanitizers with methyl alcohol is prohibited.(E) Personal protective equipment.

1. Employers shall evaluate the need for personal protective equipment to prevent exposure to COVID-19 hazards, such as gloves, goggles, and face shields, and provide such personal protective equipment as needed. Whenever an employer provides respirators for voluntary use under this section or sections 3205.1 through 3205.4, the employer shall encourage their use and shall ensure that employees are provided with a respirator of the correct size.
2. Starting July 31, 2021, employers shall provide respirators for voluntary use in compliance with subsection 5144(c)(2) to all employees working indoors or at outdoor mega events who are not fully vaccinated.
3. Employers shall provide and ensure use of respirators in compliance with section 5144 when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8, section 332.3.
4. Employers shall provide and ensure use of eye protection and respiratory protection in compliance with section 5144 when employees are exposed to procedures that

TO

CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD

TITLE 8, DIVISION 1, CHAPTER 4

may aerosolize potentially infectious material such as saliva or respiratory tract fluids.

NOTE: Examples of work covered by subsection (c)(8)(E)4. include, but are not limited to, certain dental procedures and outpatient medical specialties not covered by section 5199.

5. Starting [OAL to insert 15 days after effective date here], employers shall provide respirators for voluntary use in compliance with subsection 5144(c)(2) to employees who have not been fully vaccinated, and encourage use of those respirators, when employees are in a vehicle with at least one other person for 15 minutes or more.

(F) Testing of symptomatic employees. Employers shall make COVID-19 testing available at no cost to employees with COVID-19 symptoms who are not fully vaccinated, during employees' paid time.

(9) Reporting, recordkeeping, and access.

(A) The employer shall report information about COVID-19 cases and outbreaks at the workplace to the local health department whenever required by law, and shall provide any related information requested by the local health department. The employer shall report all information to the local health department as required by Labor Code section 6409.6.

(B) The employer shall maintain records of the steps taken to implement the written COVID-19 Prevention Program in accordance with section 3203(b).

(C) The written COVID-19 Prevention Program shall be made available at the workplace to employees, authorized employee representatives, and to representatives of the Division immediately upon request.

(D) The employer shall keep a record of and track all COVID-19 cases with the employee's name, contact information, occupation, location where the employee worked, the date of the last day at the workplace, and the date of a positive COVID-19 test.

(10) Exclusion of COVID-19 cases and employees who had a close contact. The purpose of this subsection is to limit transmission of COVID-19 in the workplace.

TO

CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD

TITLE 8, DIVISION 1, CHAPTER 4

(A) Employers shall ensure that COVID-19 cases are excluded from the workplace until the return to work requirements of subsection (c)(11) are met.

(B) Employers shall exclude from the workplace employees who had a close contact until the return to work requirements of subsection (c)(11) are met, with the following exceptions:

1. Employees who were fully vaccinated before the close contact and who do not develop COVID-19 symptoms; and
2. COVID-19 cases who returned to work pursuant to subsection (c)(11)(A) or (B) and have remained free of COVID-19 symptoms, for 90 days after the initial onset of COVID-19 symptoms or, for COVID-19 cases who never developed COVID-19 symptoms, for 90 days after the first positive test.

(C) For employees excluded from work under subsection (c)(10), employers shall continue and maintain an employee's earnings, wages, seniority, and all other employee rights and benefits, including the employee's right to their former job status, as if the employee had not been removed from their job. Employers may use employer-provided employee sick leave for this purpose to the extent permitted by law. Wages due under this subsection are subject to existing wage payment obligations and must be paid at the employee's regular rate of pay no later than the regular pay day for the pay period(s) in which the employee is excluded. Unpaid wages owed under this subsection are subject to enforcement through procedures available in existing law. If an employer determines that one of the exceptions below applies, it shall inform the employee of the denial and the applicable exception.

EXCEPTION 1: Subsection (c)(10)(C) does not apply where the employee received disability payments or was covered by workers' compensation and received temporary disability.

EXCEPTION 2: Subsection (c)(10)(C) does not apply where the employer demonstrates that the close contact is not work related.

(D) Subsection (c)(10) does not limit any other applicable law, employer policy, or collective bargaining agreement that provides for greater protections.

(E) At the time of exclusion, the employer shall provide the employee the information on benefits described in subsections (c)(5)(B) and (c)(10)(C).

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

(11) Return to work criteria.

(A) COVID-19 cases with COVID-19 symptoms shall not return to work until:

1. At least 24 hours have passed since a fever of 100.4 degrees Fahrenheit or higher has resolved without the use of fever-reducing medications; and
2. COVID-19 symptoms have improved; and
3. At least 10 days have passed since COVID-19 symptoms first appeared.

(B) COVID-19 cases who tested positive but never developed COVID-19 symptoms shall not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.

(C) Once a COVID-19 case has met the requirements of subsection (c)(11)(A) or (B), as applicable, a negative COVID-19 test shall not be required for an employee to return to work.

(D) Persons who had a close contact may return to work as follows:

1. Persons who had a close contact but never developed symptoms may return to work when 10 days have passed since the last known close contact.
2. Persons who had a close contact and developed any COVID-19 symptom cannot return to work until the requirements of subsection (c)(11)(A) have been met, unless all of the following are true:
 - a. The person tested negative for COVID-19 using a polymerase chain reaction (PCR) COVID-19 test with specimen taken after the onset of symptoms; and
 - b. At least 10 days have passed since the last known close contact; and
 - c. The person has been symptom-free for at least 24 hours, without using fever-reducing medications.
3. During critical staffing shortages, when there are not enough staff to provide safe patient care, essential critical infrastructure workers in the following categories may return after Day 7 from the date of last exposure if they have received a negative PCR COVID-19 test result from a specimen collected after Day 5:
 - a. Health care workers who did not develop COVID-19 symptoms;
 - b. Emergency response workers who did not develop COVID-19 symptoms; and
 - c. Social service workers who did not develop COVID-19 symptoms and who work face to face with clients in child welfare or assisted living.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

(E) If an order to isolate, quarantine, or exclude an employee is issued by a local or state health official, the employee shall not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period shall be in accordance with the return to work periods in subsection (c)(11)(A), (c)(11)(B), or (c)(11)(D), as applicable.

(F) If no violations of local or state health officer orders for isolation, quarantine, or exclusion would result, the Division may, upon request, allow employees to return to work on the basis that the removal of an employee would create undue risk to a community's health and safety. In such cases, the employer shall develop, implement, and maintain effective control measures to prevent transmission in the workplace including providing isolation for the employee at the workplace and, if isolation is not feasible, the use of respirators in the workplace.

Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3, 144.6, and 6409.6, Labor Code.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

Add new section 3205.1 to read:

§ 3205.1. Multiple COVID-19 Infections and COVID-19 Outbreaks.

(a) Scope.

(1) This section applies to a workplace covered by section 3205 if three or more employee COVID-19 cases within an exposed group, as defined by section 3205(b), visited the workplace during their high-risk exposure period at any time during a 14-day period.

(2) This section shall apply until there are no new COVID-19 cases detected in the exposed group for a 14-day period.

(b) COVID-19 testing.

(1) The employer shall make COVID-19 testing available at no cost to its employees within the exposed group, during employees' paid time, except:

(A) Employees who were not present at the workplace during the relevant 14-day period(s) under subsection (a).

(B) Employees who were fully vaccinated before section 3205.1 became applicable and who do not have COVID-19 symptoms; and

(C) For COVID-19 cases who did not develop COVID-19 symptoms after returning to work pursuant to subsections 3205(c)(11)(A) or (B), no testing is required for 90 days after the initial onset of COVID-19 symptoms or, for COVID-19 cases who never developed symptoms, 90 days after the first positive test.

(2) COVID-19 testing shall consist of the following:

(A) Immediately upon being covered by this section, testing shall be made available to all employees in the exposed group and then again one week later. Negative COVID-19 test results of employees with COVID-19 exposure shall not impact the duration of any quarantine, isolation, or exclusion period required by, or orders issued by, the local health department.

(B) After the first two COVID-19 tests required by subsection (b)(2)(A), employers shall make COVID-19 testing available once a week at no cost, during paid time, to all employees in the exposed group who remain at the workplace, or more frequently if recommended by the local health department, until this section no longer applies pursuant to subsection (a)(2).

TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

- (c) Employers shall make additional testing available at no cost to employees, during employees' paid time, when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8, section 332.3.
- (d) The employer shall continue to comply with all applicable provisions of section 3205, and shall also comply with the following:
- (1) Any employees in the exposed group who are not wearing respirators required by the employer and used in compliance with section 5144 shall be separated from other persons by at least six feet, except where an employer can demonstrate that six feet of separation is not feasible, and except for momentary exposure while persons are in movement. Methods of physical distancing include: telework or other remote work arrangements; reducing the number of persons in an area at one time, including visitors; visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel; staggered arrival, departure, work, and break times; and adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees.
 - (2) When it is not feasible to maintain a distance of at least six feet, individuals shall be as far apart as feasible.
 - (3) At work stations where an employee is assigned to work for an extended period of time, such as cash registers, desks, and production line stations, and where the physical distancing requirement in subsection (d)(1) is not maintained at all times, the employer shall install cleanable solid partitions that effectively reduce transmission between the employee and other persons.
- (e) COVID-19 Investigation, review and hazard correction. The employer shall immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19. The investigation and review shall be documented and include:
- (1) Investigation of new or unabated COVID-19 hazards including the employer's leave policies and practices and whether employees are discouraged from remaining home

TITLE 8, DIVISION 1, CHAPTER 4

when sick; the employer's COVID-19 testing policies; insufficient outdoor air; insufficient air filtration; and lack of physical distancing.

(2) The review shall be updated every 30 days that this section continues to apply, in response to new information or to new or previously unrecognized COVID-19 hazards, or when otherwise necessary.

(3) The employer shall implement changes to reduce the transmission of COVID-19 based on the investigation and review required by subsections (e)(1) and (e)(2). The employer shall consider moving indoor tasks outdoors or having them performed remotely, increasing outdoor air supply when work is done indoors, improving air filtration, increasing physical distancing as much as feasible, requiring respiratory protection in compliance with section 5144, and other applicable controls.

(f) In buildings or structures with mechanical ventilation, employers shall filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, employers shall use filters with the highest compatible filtering efficiency. Employers shall also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units or other air cleaning systems would reduce the risk of transmission and, if so, shall implement their use to the degree feasible.

(g) Until July 31, 2021, employees in the exposed group who are working indoors or at outdoor mega events and are not fully vaccinated, when not required by the employer to wear respirators, shall be provided with respirators for voluntary use in compliance with section 5144(c)(2).

NOTE to subsection 3205.1(g): Starting on July 31, 2021, this will be required in all workplaces covered by section 3205.

Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.

TITLE 8, DIVISION 1, CHAPTER 4

Add new section 3205.2 to read:

§ 3205.2. Major COVID-19 Outbreaks.

(a) Scope.

(1) This section applies to any workplace covered by section 3205 if 20 or more employee COVID-19 cases in an exposed group, as defined by section 3205(b), visited the workplace during their high-risk exposure period within a 30-day period.

(2) This section shall apply until there are fewer than three COVID-19 cases detected in the exposed group for a 14-day period.

(b) Employers shall continue to comply with section 3205.1, except that the COVID-19 testing described in section 3205.1(b) shall be made available twice a week, or more frequently if recommended by the local health department.

(c) In addition to the requirements of sections 3205 and 3205.1, the employer shall take the following actions:

(1) The employer shall determine the need for a respiratory protection program or changes to an existing respiratory protection program under section 5144 to address COVID-19 hazards.

(2) The employer shall evaluate whether to halt some or all operations at the workplace until COVID-19 hazards have been corrected.

(3) Any other control measures deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.

CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

Add new section 3205.3 to read:

§ 3205.3. COVID-19 Prevention in Employer-Provided Housing.

(a) Scope. This section applies to employer-provided housing. Employer-provided housing is any place or area of land, any portion of any housing accommodation, or property upon which a housing accommodation is located, consisting of: living quarters, dwelling, boardinghouse, tent, bunkhouse, maintenance-of-way car, mobile home, manufactured home, recreational vehicle, travel trailer, or other housing accommodations. Employer-provided housing includes a “labor camp” as that term is used in title 8 of the California Code of Regulations or other regulations or codes. The employer-provided housing may be maintained in one or more buildings or one or more sites, including hotels and motels, and the premises upon which they are situated, or the area set aside and provided for parking of mobile homes or camping. Employer-provided housing is housing that is arranged for or provided by an employer, other person, or entity to workers, and in some cases to workers and persons in their households, in connection with the workers' employment, whether or not rent or fees are paid or collected.

The following exceptions apply:

- (1) This section does not apply to housing provided for the purpose of emergency response, including firefighting, rescue, and evacuation, and support activities directly aiding response such as utilities, communications, and medical operations, if:
 - (A) The employer is a government entity; or
 - (B) The housing is provided temporarily by a private employer and is necessary to conduct the emergency response operations.
- (2) Subsections (c), (d), (e), (f), and (h) do not apply to residents who maintained a household together prior to residing in employer-provided housing, such as family members, when no other persons outside the household are present.
- (3) This section does not apply to employees with occupational exposure as defined by section 5199, when covered by that section.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

- (4) This section does not apply to employer-provided housing used exclusively to house COVID-19 cases or where a housing unit houses one employee.
- (5) This section does not apply to housing in which all residents are fully vaccinated.
- (b) Assignment of housing units. To the extent feasible, employers shall reduce exposure to COVID-19 hazards by assigning employee residents to distinct groups and ensuring that each group remains separate from other such groups during transportation and work. Employers shall ensure that shared housing unit assignments are prioritized in the following order:
- (1) Residents who usually maintain a household together outside of work, such as family members, shall be housed in the same housing unit without other persons.
 - (2) Residents who work in the same crew or work together at the same workplace shall be housed in the same housing unit without other persons.
 - (3) Employees who do not usually maintain a common household, work crew, or workplace shall be housed in the same housing unit only when no other housing alternatives are feasible.
- (c) Physical distancing and controls. Employers shall:
- (1) Ensure the premises are of sufficient size and layout to permit at least six feet of physical distancing between residents in housing units, common areas, and other areas of the premises.
 - (2) Ensure beds are spaced to allow at least eight feet between the corner of the head of each bed and positioned to maximize the distance between sleepers' heads. For beds positioned next to each other, i.e. side by side, the beds shall be arranged so that the head of one bed is next to the foot of the next bed. For beds positioned across from each other, i.e. end to end, the beds shall be arranged so that the foot of one bed is closest to the foot of the next bed. Bunk beds shall not be used by more than one person.
 - (3) In housing units, maximize the quantity and supply of outdoor air and increase filtration efficiency to the highest level compatible with the existing ventilation system. If there is not a Minimum Efficiency Reporting Value (MERV) 13 or higher

TITLE 8, DIVISION 1, CHAPTER 4

- filter in use, portable or mounted High Efficiency Particulate Air (HEPA) filtration units shall be used, to the extent feasible, in all sleeping areas in which there are two or more residents who are not fully vaccinated.
- (d) Face coverings. Employers shall provide face coverings to all residents and provide information to residents on when they should be used in accordance with state or local health officer orders or guidance.
- (e) Cleaning and disinfecting.
- (1) Employers shall ensure that housing units, kitchens, bathrooms, and common areas are effectively cleaned to prevent the spread of COVID-19. Housing units, kitchens, bathrooms, and indoor common areas shall be cleaned and disinfected after a COVID-19 case was present during the high-risk exposure period, if another resident will be there within 24 hours of the COVID-19 case. Cleaning and disinfecting shall be done in a manner that protects the privacy of residents.
- (2) Employers shall instruct residents not to share unwashed dishes, drinking glasses, cups, eating utensils, and similar items.
- (f) Screening. The employer shall encourage residents to report COVID-19 symptoms to the employer.
- (g) COVID-19 testing. The employer shall establish, implement, and maintain effective policies and procedures for COVID-19 testing of residents who had a close contact, who have COVID-19 symptoms, or as recommended by the local health department. These policies and procedures shall be communicated to the residents.
- (h) COVID-19 cases and close contacts.
- (1) Employers shall effectively quarantine residents who have had a close contact from all other residents. Effective quarantine shall include providing residents who had a close contact with a private bathroom and sleeping area. The following residents are exempt from this requirement:
- (A) Fully vaccinated residents who do not have COVID-19 symptoms; and
(B) COVID-19 cases who have met the requirements of subsection 3205(c)(11)(A) or (B) and have remained free of COVID-19 symptoms, for 90 days after the

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

initial onset of COVID-19 symptoms or, for COVID-19 cases who never developed COVID-19 symptoms, for 90 days after the first positive test.

- (2) Employers shall effectively isolate COVID-19 cases from all residents who are not COVID-19 cases. Effective isolation shall include housing COVID-19 cases only with other COVID-19 cases, and providing COVID-19 case residents with a sleeping area and bathroom that is not shared by non-COVID-19 case residents.
- (3) Personal identifying information regarding COVID-19 cases and persons with COVID-19 symptoms shall be kept confidential in accordance with subsection 3205(c)(3)(C).
- (4) Employers shall end isolation in accordance with subsections 3205(c)(10) and (c)(11) and any applicable local or state health officer orders.

Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

Add new section 3205.4 to read:

§ 3205.4. COVID-19 Prevention in Employer-Provided Transportation.

- (a) Scope. This section applies to employer-provided motor vehicle transportation, which is any transportation of an employee during the course and scope of employment, including transportation to and from different workplaces, jobsites, delivery sites, buildings, stores, facilities, and agricultural fields, provided, arranged for, or secured by an employer regardless of the travel distance or duration involved. The following exceptions apply:
- (1) This section does not apply if the driver and all passengers are from the same household outside of work, such as family members, or if the driver is alone in the vehicle.
 - (2) This section does not apply to employer-provided transportation when necessary for emergency response, including firefighting, rescue, and evacuation, and support activities directly aiding response such as utilities, communications, and medical operations.
 - (3) This section does not apply to employees with occupational exposure as defined by section 5199, when covered by that section.
 - (4) This section does not apply to vehicles in which all employees are fully vaccinated.
 - (5) This section does not apply to public transportation.
- (b) Assignment of transportation. To the extent feasible, employers shall reduce exposure to COVID-19 hazards by assigning employees sharing vehicles to distinct groups and ensuring that each group remains separate from other such groups during transportation, during work activities, and in employer-provided housing. Employers shall prioritize shared transportation assignments in the following order:
- (1) Employees residing in the same housing unit shall be transported in the same vehicle.
 - (2) Employees working in the same crew or workplace shall be transported in the same vehicle.

TITLE 8, DIVISION 1, CHAPTER 4

(3) Employees who do not share the same household, work crew or workplace shall be transported in the same vehicle only when no other transportation alternatives are feasible.

(c) Physical distancing and face coverings. Employers shall ensure that:

(1) Face covering requirements of subsection 3205(c)(7) are followed for employees waiting for transportation. Until July 31, 2021, employers must comply with either subsection 3205(c)(6)(A) or (c)(6)(B) when employees are waiting for transportation.

(2) There is one unoccupied seat between each person in the vehicle or the vehicle operator and any passengers are separated by at least three feet in all directions during the operation of the vehicle, regardless of the vehicle's normal capacity. Measuring the space between bodies or between heads are both acceptable measuring methods.

(3) The vehicle operator and any passengers are provided with and wear a face covering in the vehicle as required by subsection 3205(c)(7). Starting [OAL to insert 15 days after effective date here], employees who are not fully vaccinated shall be provided with respirators for voluntary use in compliance with subsection 5144(c)(2), and encouraged to use the respirators, when employees are in a vehicle for 15 minutes or more.

EXCEPTION to subsection (c): Employers are not required to comply with this subsection where all persons inside the vehicle who are not fully vaccinated are required by the employer to wear respirators and are using them in compliance with section 5144.

(d) Screening. Employers shall develop, implement, and maintain effective procedures for screening and excluding drivers and riders with COVID-19 symptoms prior to boarding shared transportation.

(e) Cleaning and disinfecting. Employers shall ensure that:

(1) All high-contact surfaces (door handles, seatbelt buckles, armrests, etc.) used by passengers are cleaned to prevent the spread of COVID-19 and must be cleaned and disinfected if used by a COVID-19 case during the high-risk exposure period, when the surface will be used by another employee within 24 hours of the COVID-19 case.

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

TITLE 8, DIVISION 1, CHAPTER 4

(2) All high-contact surfaces used by drivers, such as the steering wheel, armrests, seatbelt buckles, door handles and shifter, shall be cleaned to prevent the spread of COVID-19 between different drivers and are disinfected after use by a COVID-19 case during the high-risk exposure period, if the surface will be used by another employee within 24 hours of the COVID-19 case.

(3) Employers shall provide sanitizing materials and ensure they are kept in adequate supply.

(f) Ventilation. Employers shall ensure that vehicle windows are kept open, and the ventilation system set to maximize outdoor air and not set to recirculate air. Windows do not have to be kept open if one or more of the following conditions exist:

(1) The vehicle has functioning air conditioning in use and excessive outdoor heat would create a hazard to employees.

(2) The vehicle has functioning heating in use and excessive outdoor cold would create a hazard to employees.

(3) Protection is needed from weather conditions, such as rain or snow.

(4) The vehicle has a cabin air filter in use and the U.S. EPA Air Quality Index for any pollutant is greater than 100.

(g) Hand hygiene. Employers shall provide hand sanitizer in each vehicle and ensure that all drivers and riders sanitize their hands before entering and exiting the vehicle. Hand sanitizers with methyl alcohol are prohibited.

(h) This section shall take precedence when in conflict with section 3205.

Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.
