**Updates:**

In the most recent quarter of 2024, DAS continued its hiring progress, filling vacancies to support apprenticeship program work, grant management, and administrative duties of the DAS. This includes a youth and pre-apprenticeship manager and team.

The 2024-25 State Budget has been finalized, and while all of the state funded grant programs at DAS were proposed to be cut, the final budget included \$40 million in funding restored to DAS grant programs. Of the \$40 million that was restored in the State budget, \$25 million was allocated to youth apprenticeship, and \$15 million was allocated for women in construction.

There was no additional funding allocated for Apprenticeship Innovation Funding (AIF), however of the \$95 allocated to date, we have remaining funds committed to reimburse the costs of apprentices being served in 2024, which will be administered through an application round in early 2025. We will continue processing AIF on a rolling basis and have arrived at a final list of awardees that we anticipate announcing in early November.

Part of the State Budget included reductions for all state agencies across the board for staffing, and we are working with DIR leadership, the Department of Finance, and Labor and Workforce Development Agency to minimize the impacts to DAS work.

DAS awarded California Opportunity Youth Apprenticeship Grants (COYA) to meet the state's need to boost pre-apprenticeships and apprenticeships that help youth enter and advance in high-quality careers. COYA is investing \$31 million in apprenticeship programs that have the power to uplift opportunity youth across California, including those aged 16-24 who face educational achievement gaps or attend schools in lower-income communities. The funding will support 51 projects across California that pave the way for youth apprentices to succeed. The grants support a network of apprenticeship programs in healthcare, education, advanced manufacturing, information technology, public sector, transportation and more. COYA will also ensure employers are supported and encouraged to hire young workers based on their talent and skills.

AB 2358 implementation continues, and all standards are up to date. DAS extends a warm thank all programs for diligently working with the team to update all of the standards to comply with this mandate.

In September, the Chief released a memo to all DAS staff covering wage guidelines for all IACA programs and occupations. The memo directed staff to lead programs to consider ETP Trainee Wages ("Standard Wages, New Hire" by county) when discussing apprentice wage schedules with IACA programs. Starting apprentice wages not meeting the ETP wages for the current year and county(ies) where the apprentice work is performed, may be rejected by the Chief. Exceptions to this directive would be programs where:

- Wages are covered by a Collective Bargaining Agreement (CBA)
- All 1st period apprentices attend High School

While ETP minimum wages are not required by CA Labor Code or Regulation, staff should caution programs as the Chief has sole discretion to approve/deny programs that are not in the building & construction and firefighter trades (CCR §208).

Current ETP wage rates and the State and Local Minimum Wages can be found at the links below.

- State/Local - [https://www.dir.ca.gov/dlse/minimum\\_wage.htm](https://www.dir.ca.gov/dlse/minimum_wage.htm)

Amie Bergin recently departed DAS as the senior manager over the AWI team, and we are looking for a new person to lead this team at DAS.

The DAS recently completed the first annual review for the women in construction grant program, or ERICA grant, and Deputy Chief Burnes will present the update as part of the Chief's Report.

**Field Office Activities**

Consultants continue to work with our existing JACs, UACs, and other program sponsors to update standards, attend committee meetings, and assist with various matters that may arise so you can continue the successful operation of your apprenticeship programs. Staff have been attending numerous program apprenticeship graduations this past quarter congratulating all of the new journeymen in their new role as a mentor to future apprentices. Staff reassignments continue to take place to equalize workload and services your programs. The Los Angeles field office is looking to add one new consultant who will begin in late October.

**Apprenticeship Training Fund Check Processing**

**ERiCA Grant**

The Equal Representation in Construction Apprenticeship (ERiCA) Grant is making significant strides. Grantees are focused on providing vital childcare resources while engaging in outreach and community development efforts. DAS is conducting a thorough assessment of participant reports and narratives concerning the grantees' activities, which will share its findings with them once it has been finalized. DAS continues to be dedicated to assisting the grantees in reaching their goals.
