(c) Referring Employers. In facilities, services, or operations in which there is occupational exposure and which meet the criteria specified by (a)(3)(A), employers are only required to comply with the following provisions:

(1) The employer shall designate a person as the administrator who will be responsible for the establishment, implementation and maintenance of effective written infection control procedures to control the risk of transmission of aerosol transmissible diseases. The administrator shall have the authority to perform this function and shall be knowledgeable in infection control principles as they apply specifically to the facility, service or operation. The administrator shall also identify in writing the job categories in which employees have occupational exposure to ATDs. When the administrator is not on site, there shall be a designated person with full authority to act on his or her behalf. The infection control procedures shall include procedures for the cleaning and disinfection of work areas, vehicles, and equipment that may become contaminated with ATPs and pose an infection risk to employees. The written procedures shall be available at the worksite.

Prior to and during the course of the inspection, including, but not limited to April 2, 2020, the employer failed to maintain effective written infection control procedures to control the risk of transmission of aerosol transmissible diseases including but not limited to cleaning and disinfection of work areas, vehicles, and equipment that may become contaminated with ATPs and pose an infection risk to employees at the Cois M.
