

Chapter 3.2. California Occupational Safety and Health Regulations (CAL/OSHA)
Subchapter 2. Regulations of the Division of Occupational Safety and Health

Article 5. Boiler and Tank Permit and Inspection Fee Schedule

§344. Shop, Field and Resale Inspection Program Fees.

(a) A fee of ~~\$150.00~~\$180.00 per hour shall be charged for all work, including travel time, performed in connection with all shop, field erection and resale inspections of all tanks, boilers, parts of tanks and boilers, and nuclear components, and for consultation, surveys, audits, manual review and other activities required or related to the ASME code or other national standards concerning the design or construction of boilers or pressure vessels or for evaluating fabricator's plant facilities when these services are requested of the division by entities desiring these services. Time shall be billed in quarter-hour increments, rounded up to the nearest quarter hour. No additional fees shall be assessed or charged under this subsection.

(b) Whenever a person using a qualified safety engineer employed by the division to perform any of the services stated in section 344, subsection (a) fails to pay the fees required under subsection (a) within 60 days from the date on the fees invoice, said person shall pay, in addition to the fees required under subsection (a), a penalty fee equal to 100 percent of the fee.

Note: Authority cited: Sections 60.5, 6308, 7721, 7722 and 7728, Labor Code. Reference: Sections 7650, 7721, 7725 and 7728, Labor Code.

Chapter 3.2. California Occupational Safety and Health Regulations (CAL/OSHA)
Subchapter 2. Regulations of the Division of Occupational Safety and Health

Article 5. Boiler and Tank Permit and Inspection Fee Schedule

§344.1. Air Tank, Liquefied Petroleum Gas (L.P.G.) Tank, and Boiler Permit Inspection Program Fees.

(a) A fee of ~~\$150.00~~\$180.00 per hour shall be charged for all work, including travel time, performed in connection with all field, resale and alteration permit inspections of air tanks, liquefied petroleum gas (L.P.G.) tanks, and boilers performed by a qualified safety engineer employed by the division. Time shall be billed in quarter-hour increments, rounded up to the nearest quarter hour. No additional fees shall be assessed or charged under this subsection.

(b) A fee of ~~\$150.00~~\$180.00 per hour shall be charged for all work, including travel time, performed in connection with all follow-up inspections of any of the services stated in section 344.1, subsection (a), when applicable safety order requirements have not been complied with within 15 days of the compliance date shown on the preliminary order. Time shall be billed in quarter-hour increments, rounded up to the nearest quarter hour. No additional fees shall be assessed or charged under this subsection.

(c) No additional fees shall be assessed for follow-up inspections when safety order requirements have been complied with, and the division is notified of such compliance, within 15 days of the compliance date shown on the preliminary order.

(d) Whenever a person using a qualified safety engineer employed by the division to perform any of the services stated in section 344.1, subsections (a) and (b) fails to pay the fees required under subsections (a) and (b) within 60 days from the date on the fees invoice, said person shall pay, in addition to the fees required under subsections (a) and (b), a penalty fee equal to 100 percent of the fee.

Note: Authority cited: Sections 60.5, 6308, 7721, 7722 and 7728, Labor Code. Reference: Sections 7650, 7680, 7681, 7682, 7683, 7721 and 7728, Labor Code.

Chapter 3.2. California Occupational Safety and Health Regulations (CAL/OSHA)

Subchapter 2. Regulations of the Division of Occupational Safety and Health

Article 5. Boiler and Tank Permit and Inspection Fee Schedule

§344.2. Air Tank, Liquefied Petroleum Gas (L.P.G.) Tank, and Boiler Permit to Operate Program Fees.

(a) Permits to operate shall be issued by the division or on behalf of the division.

(b) A fee of ~~\$45.00~~\$55.00 shall be charged to cover the cost of processing each permit to operate. The division shall issue a permit to operate upon receipt of the ~~\$45.00~~\$55.00 processing fee, and the inspection report required by Labor Code section 7654 finding the air tank, liquefied petroleum gas (L.P.G.) tank, or boiler subject to the inspection to be in a safe condition for operation.

(c) Whenever a person owning or having the custody, management or operation of an air tank, liquefied petroleum gas (L.P.G.) tank, or boiler fails to pay the fees required under subsection (b) within 60 days from the date on the fees invoice, said person shall pay, in addition to the fees required under subsection (b), a penalty fee equal to 100 percent of the fee.

Note: Authority cited: Sections 60.5, 6308, 7721 and 7728, Labor Code. Reference: Sections 7650, 7654, 7680, 7683, 7721 and 7728, Labor Code.
