A. PROPOSED PETITION DECISION FOR ADOPTION

1. Shourish Mukherjee

[Petition 610](#)

The petitioner requests to amend Title 8 of the California Code of Regulations (CCR), section 5144, Respiratory Protection, specifically subsection (a), “Permissible Practice,” to require the posting of mandatory signage—including clear and standardized infographics—at all construction sites where respiratory hazards are present. To amend various phrases and text within the document titled “Working Safer and Easier for Janitors, Custodians, and Housekeepers,” which is referenced in Appendix A (Non-Mandatory) of section 3345. The Petitioner asserts that the proposed signage requirements and document revisions would strengthen point-of-hazard communication, reduce the risk of exposure to respiratory hazards, and improve consistency and clarity with existing Title 8 standards. Furthermore, these changes would enhance language accessibility, ensuring that safety information is understandable to a diverse workforce.

2. California Nurses for Environmental Health & Justice

[Petition 611](#)

The petitioner requests to amend title 8 to require the use of fume hoods to mitigate the inhalation hazard of medication(s) when nurses are crushing pharmaceuticals in healthcare facility settings.

The petitioner asserts that exposure to particulate matter has

been linked to adverse health impacts such as premature death in people with heart and lung disease, nonfatal heart attacks, irregular heartbeat, aggravated asthma, decreased pulmonary function, and increased respiratory symptoms.
